The theme of this article is the arrival of April, the most significant month on the Satanist calendar and the month with an extremely long list of celebrated assassination and mass murder events that they boast of. Some events are well-known to follow the April pattern, while others are not. The relevance to the financial world is immediate, when one considers that the Chinese have a planned launch of the Shanghai Gold Price Fix, as well as the introduction of the Shanghai RMB-based Gold Futures contract, the date arranged at April 19th. This date is right smack dab in the middle of the week marked by the Celebration of Fire. What an incredible insult to the banker cabal, replete with Satanists like uber-leader Rothschild, if the fiat paper currency system centered upon the USDollar is upended by China during mid-April! The temples might indeed be overturned that

would catch King Solomon's attention. Any wresting of control within the Gold market would enable the price to rise, like to establish an equilibrium between supply & demand in the physical market. Refer to a doubled Gold price and a tripled Silver price suddenly. For perhaps 40 years or more, the Gold price has been set by paper contracts with claimed price discovery involved. However, no discovery is anywhere visible on any horizon, any arena, any window. It is a den of profound corruption upon which the entire USDollar platforms rests. The Chinese attack within the Gold market could hit Satanist bankers where they live, in the fire of mid-April.

The arrival of the Gold futures contract in Shanghai poses an additional risk for the Western banker cabal, a grand crime syndicate which extends to the energy firms, the military industrial complex, the big pharmaceutical firms, and the press networks. A real valid bonafide Gold contract which delivers physical gold would enable vast arbitrage to buy cheap in London and sell dear in China. Any acceleration in the arbitrage activity, combined with any sincere attempt to set the Gold Fix in a reasonable manner that puts equilibrium as priority, and the Western bankers will face the USDollar kicked to the curb and possible global boycott. The zinger factor is that the Chinese Interbank Payment System (CIPS) is ready. It serves as an alternative to the SWIFT bank transaction system. The little known fact (except to Hat Trick Letter clients) is that CIPS was successfully field tested in late February. It only lacks tight connection to the FOREX currency market, and to the Sovereign Bond market, in particular the USTreasurys. The demise of the USDollar is finally visible. The King Dollar Reign of Terror is soon to come to an end. One of the most shameful eras in modern financial history is coming to a close. The USDollar has turned toxic since QE was introduced, killing capital as quickly as foreign opponents are killed on the battlefield under false cause for war in its defense of the global currency reserve. The reserve status is going away, and with it the USEconomy on a credit card. A New Dollar stands at tremendous risk of a series of devaluations.

## **SIGNIFICANCE & COINCIDENCE OF APRIL**

The list of nasty fiery events arranged during April in recent years is long. Be sure to read correctly, as the Jackass claims these were all murder events arranged by the cabal of Satanists. The insider word indicates that since 2011 the FBI has served as the new hired hand in organizing the motivated public criminal deeds, then in charge of the cover-up with news coverage in pure propaganda, finally in charge of arresting the patsy in an clever incrimination frame. Their motive is to create fear and trepidation among the public, to facilitate the Global Fascist State, but also to mix in some targeted destructions

to serve their greater goals. In recent years, see the Oklahoma City bombing in 1995 which eradicated evidence against Clinton in his Fannie Mae thefts. Together with Papa Bush deeds, the thefts totaled \$1.6 trillion, fully documented by auditor Catherine Austin Fitts (complete with failed murder attempts on her). See the Deepwater Horizon BP oil spill in 2010 (with direct participation by Halliburton thugs). The Halliburton team had acquired scores of on-shore drilling contracts before the ecologically violent deed that shut down the Gulf of Mexico. See the Waco Texas siege in 1993 by officers of the Alcohol Tobacco & Firearms agency. See the Aurora Colorado (Batman movie) public murder spree in 2012. See the Boston Marathon staged bombing in 2013. See the Texas West chemical plant explosion in 2014, actually forecasted by the Jackass in response to the state's formal request to the New York Fed for their gold reserves. These events all occurred in the month April.

Little do followers of the April incidence realize, but the trend pattern extends far back in history. The Satanists have been among us, plying their murderous trade, for centuries. Refer to the April assassination of Abraham Lincoln in 1865, handiwork from the London bankers who boasted of their deed in the major newspapers of London at the time. Refer to the sinking of the Titanic in 1912, with a clever hidden ploy by John Pierpoint Morgan to remove three important business rivals from the New York City scene, effectively kept out of the news. Refer to the assassination of Martin Luther King in 1968, surely the handiwork of the Langley robot crew.

Back three years ago, the Jackass wrote a public article that pointed out the extremely high odds that so many fiery explosive public death events would occur in April. The odds were calculated to be like several million to one, hence hardly random events. Each event should occur with only 1 in 12 chances in April, yet the great majority of such events occur in April. In fact, more such fiery death events of a public nature occur during April, versus all other 11 months combined. To be sure, the week of April 14-20 represents the most violent and tragic week in US history. It has a proximal cause tied to motive among the Satanists, who derive a sociopathic joy from fiery deaths of innocents. See Chron ([HERE](#)).

## **SATANIST CELEBRATION OF FIRE**

They call the event Beltane, the infamous Celebration of Fire among the Satanists. Sadly,

these sociopaths are organized. They dominate the entire collection of Western institutions. This sadistic venomous vile group has been exposed in many ways during recent years, to their dismay. They prefer that the society adopt their symbols and use them in seeming harmless ways like on clothing. But such is not the case. Rothschild has seen fit to decorate the city of Toulouse France with countless Satanist symbols in public places, a sure subliminal gesture. The Jackass recalls over a year ago a favorite actor James Woods departed Hollywood, claiming he would never do another film or series, sickened by the penetration of the Satanists in the entertainment business. Even Katie Perry has sold her soul for fame and fortune, with rumors that she had to volunteer as object for sadistic sex parties. The prevalence of their symbols reaches farther than ever before in recent memory.

Even political and religious figures are involved in the Satanic movement. Notice the Satanic hand signal, which is derived from the devil's horns, used by Obama, Hillary, but also the Pope Ratzinger (aka Pope Malevolent). This vile pope was the only papal leader in a millennium to be forcibly removed from his post, part of a paradigm shift and cleanup process. The climax of the cleanup process might have occurred with the Russian Patriarch met the Fascist Pope a couple of months ago, making an historical pact of secret deals. The sexual perversions of leaders go hand in hand with their Satanic practices. The links among politicians, central bankers, big Western bankers, big Western energy companies, the Vatican with their Black Nobility (aka Illuminati), the European Union Commission, Hollywood directors, and major Western corporations are very firm with a common theme of Satanic servitude and following. Related topics will not be delved into their practice of numerology or child abductions (like the Sandy Hook staged event) or

DisneyWorld (its sovereign nation status to protect from missing children). The topic can spawn chapters in numerous directions.

## PREVALENT SATANIST SYMBOLS

As innocent as Halloween and a popular favorite of Devil's Night for mischief, these Satanists enjoy murder, mayhem, war, chaos, and the production of widespread fear. Recall the closing ceremonies for the London 2012 Summer Olympics. It was loaded with Satanic symbols in a shocking display. But it caused a reaction. The following Super Bowl in February 2013 with a New Orleans setting was significant. The electricity supply was cut off at half-time when the long elaborate Satanic display was planned. Beyonce was angry. The sources indicate that the White Hats had endured enough of the Satanic public displays. Notice the obverse of the US\$1 bill, with the Satanic symbols of a pyramid and eye. Notice the Proctor & Gamble logo with its Satanic symbols, the array of stars and crescent. The kicker is right under our noses, with the Pentagon being an embodiment of the Satanic pentagram. These symbols are there for all to see, that is for those who choose to look. Some point to the Denver Stapleton Airport for its nazi symbol in art work as well as facility layout, visible from the air. It is CIA West, and a known Satanic center.

The entertainment field has been a favorite target for Satanists. They can promote their beliefs and symbols in full view in movies, television series, music, and concerts. Their key players are Madonna, Lady Gaga, Katie Perry, Ozzie Osbourne, Marilyn Manson, Rihanna, Beyonce, Jay-Z, Nicki Minaj, Trent Reznor, among others. This is not simply a matter of style, but rather a Satanic infiltration with a dedicated following, a sure purpose, and a gathered following.

## SEVEN BOWLS OF DEATH & PESTILENCE

The Biblical Prophecies cite that during the End Times, the earth will be attacked by

Satanists. They will attempt to poison and destroy our world with seven bowls, a metaphor used to describe different avenues. Here is the Jackass interpretation of the details for projects currently underway. This is extremely disturbing.

- 1) Poison the AIR with chemtrails, a Rockefeller project closely associated with Agenda-21, whereby the air is filled with benzene and aluminum particles. The former is pure poison. The latter advances Alzheimer and Parkinson diseases, the radical rises already noted. The cover is global warming, a widespread ruse by the banker cabal to tax the air we breathe.
- 2) Poison the WATER with fracking procedures done by Halliburton, where toxic chemicals are injected into the water table. They are protected by US Congress laws on what is injected. Also the ocean is rumored to be contaminated by Halliburton also, where they systematically dump radioactive cesium off the California coast, only to blame the noted cancer rise on Fukushima. Other fracking firms do not dump additional toxins like Halliburton.
- 3) Poison the FOOD with Monsanto and their aggressive Genetically Modified Organisms (GMO) program. It is rumored to be an elaborate virus delivery system with designed infertility in humans just like with crops (no seeds in crop output). The pesticides also produced by Monsanto are associated with vast sweeping deaths of the global bee population.
- 4) Poison the MONEY with the US Federal Reserve monetary policy of Quantitative Easing, which is hyper monetary inflation in African style by any other name. The global reaction has been to bring the USDollar into a retirement and phase-out. The Jackass has been explaining for over three years that QE kills capital.
- 5) Poison the VACCINES by directly infusing them with the disease they are supposed to protect against, with a few zinger extra additives like mercury and formaldehyde. In recent reports, they have been found to include immune system suppressants.
- 6) Poison the ECONOMY with endless war, under the false flag of fighting terrorism, and under the ruse of fomenting color revolutions. The real motive is to interrupt the Russian energy supply to Europe, thus the Ukraine War, and to stop the Iranian gas supply to Europe, thus the Syrian War.
- 7) Poison the SOCIETY with the Arab refugee influx, all sponsored by the Western Elite leaders, with national laws all bypassed. Their passage is routinely paid by USGovt

and Soros Foundation NGO organizations, but the Austrian Govt intelligence revealed the connection. This critical step aligns with the 1900 Pike Cabal designed plan for creating a world war of Christianity versus Islam. The Jackass correctly forecasted a violent ISIS-type event in August 2015 in a major European city. It happened with the staged Paris deadly event in September, the next month.

## **NEW SCHEISS DOLLAR & GOLD TRADE STANDARD**

In time, expect an eventual refusal by Eastern producing nations to accept USTreasury Bills in payment for trade. The IMF reversal decision assures this USTBill blockade in time, and might accelerate the timetable. The United States Govt cannot continue on five glaring fronts of gross negligence and major violations. These violations have prompted the BRICS & Alliance nations to hasten their development of diverse non-USD platforms toward the goal of displacing the USDollar while at the same time take steps toward the return of the Gold Standard. The violations are:

- 1) to import finished goods and crude commodities, paying with IOU coupons
- 2) to commit multi-\$trillion bond fraud in its big banks, done without legal prosecution
- 3) to do QE bond purchases in applied hyper monetary inflation, monetizing debt
- 4) to rig all major financial markets in favor of the primal USDollar
- 5) to engage in numerous regional wars to support the USDollar.

The New Scheiss Dollar will arrive in order to assure continued import supply to the USEconomy. It will be given a 30% devaluation out of the gate, then many more devaluations of similar variety. The New Dollar will fail all foreign and Eastern scrutiny. The USGovt will be forced to react to USTBill rejection at the ports. The US must accommodate with the New Scheiss Dollar in order to assure import supply, and to alleviate the many stalemates to come. The United States finds itself on the slippery slope that leads to the Third World, a Jackass forecast that has been presented since Lehman fell (better described as killed by JPM and GSax). The only apparent alternative is for the United States Govt to lease a large amount of gold bullion (like 10,000 tons) from China in order to properly launch a gold-backed currency. Doing so would open the gates for a generation of commercial colonization, but actual progress in returning capitalism to the United States. The cost would be supply shortages to the USEconomy, a result of

enormous export increases to China. The colonization has already begun, with secret deals galore. As Ron Paul has stated, one cannot blame capitalism for the current failure, since we have had almost none!

The Gold price will find its true value and price over \$10,000 per ounce. The Silver price will find its true value and price over \$300 per ounce. In reaching these levels, the ratio will return to the 30-1 range. Several steps have been laid out by the Hat Trick Letter toward the return of proper price to precious metals. The major upcoming events will be exciting to watch unfold, one after the other, in an inevitable sequence away from fascism and concentrated uni-polar power, with a strong movement toward freedom and equitable systems with distributed power. The steps will each involve a quantum jump in the Gold & Silver prices. The process will take a few years, but might be breath-taking in speed once the process is begun. The steps involve:

the critical mass of rejected USTBills in trade settlement, citing its corrupt roots and illicit monetary policy as foundation

the return to the Gold Trade Standard and introduction of Gold Trade Notes as letters of credit, in replacement for a fair tangible payment system (no more IOU coupons)

the recapitalization of the global banking system with Gold as primary reserve asset, so as to relieve the grotesque stagnation, insolvency, and dysfunction

the seeking of equilibrium in Supply vs Demand in the new fair uninhibited market, with exclusive control removed from London and New York, and placed elsewhere like in Shanghai, Hong Kong, Dubai, and Singapore.

the seeding of BRICS gold & silver backed currencies from participating nations within the Alliance (likely several with slight variation in features)

the re-opening of the gold mine industry with some blue sky, and relief from the Evergreen element at Barrick

the remedy toward owners of over 40,000 tons of rehypothecated and stolen gold in bullion banks across the world (primarily in Switzerland.

Use the above link to subscribe to the paid research reports, which include coverage of critically important factors at work during the ongoing panicky attempt to sustain an unsustainable system burdened by numerous imbalances aggravated by global village forces. The historically unprecedented ongoing collapse has been created by compromised central bankers and inept economic advisors, whose interference has irreversibly altered and damaged the world financial system, urgently pushed after the removed anchor of money to gold. Analysis features Gold, Crude Oil, USDollar, Treasury bonds, and inter-market dynamics with the US Economy and US Federal Reserve monetary policy.

"As a Golden Jackass subscriber, I greatly enjoy listening to your interviews because it really lends a sense of passion that lies behind the tremendous body of information and formulation that goes into your monthly research. Though I must admit, it scares the hell out of me most of the time. Still, I will not miss it for the world. I feel that having a truly objective insight from your research, in depth analysis, and accurate forecasts gives me and my family an important life saving advantage. And I mean that sincerely."

(MichaelS in Ontario)

"I have continued my loyal patronage of your excellent commentaries not so much because of my total agreement with your viewpoints, but because you have proven yourself to be correct so often over the years. When you are wrong, you have publicly admitted it. You are, I suppose by nature, an outspoken and irreverent spokesman for TRUTH against power, which differentiates you from almost all other pundits on world affairs."

(PaulR in Hawaii)

"For over five years I have been eagerly assimilating any and all free information (articles, interviews, etc) that Jim Willie puts out there. Just recently I finally took the plunge and became a paid subscriber. I regret not doing this much sooner, as my expectations were blown away with the vast amount of sourced information, analysis tied together, and logical forecasts contained in each report."

(JosephM in South Carolina)

"Jim Willie is a gift to our age who is the only clear voice sounding the alarm of the extreme financial crisis facing the Western nations. He has unique skills of unbiased analysis with synthesis of information from his valuable sources. Since 2007, he has made over 17 correct forecast calls, each at least a year ahead of time. If you read his work or listen to his interviews, you will see what has been happening, know what to expect, and know what to do."

(Charles in New Mexico)

"A Paradigm change is occurring for sure. Your reports and analysis are historic documents, allowing future generations to have an accurate account of what and why things went wrong so badly. There is no other written account that strings things along on the timeline, as your writings do. I share them with a handful of incredibly influential people whose decisions are greatly impacted by having the information in the Jackass format. The system is coming apart on such a mega scale that it is difficult to wrap one's head around where all this will end. But then, the universe strives for equilibrium and all will eventually balance out."

(The Voice, a European gold trader source)
